The simplest quantum computer

ORAL · Invited

ABSTRACT

Instead of giving a review on the state of the field, I'm going to instead give a retrospective from the year 2040. I'll tell you how this whole "quantum computing thing" turned out.

March 18, 2025, 8:00 AM – March 18, 2025, 8:36 AM

PRESENTERS

Charles Tahan
University of Maryland / Microsoft
